Arnil,

It was nice speaking to you yesterday. As we discussed, last year we wanted to fill in the planter as shown in the attache diagram. At the time, the request was declined because the City concluded that there would be a 20" (I don't recall the exact number) drop that would create a safety hazard.

I didn't think about it at the time, but I now think adding a step would completely mitigate the safety issue.

Please review the attached diagram and let me know your thoughts on this.

Best regards,

Lorena Parker
